

Juan Novera

About

Juan graduated with Bachelor of Science in Physical Therapy in 2015 at the Pamantasan ng Lungsod ng Maynila in Philippines. With a strong passion for sports and musculoskeletal issues, whether they're acute or chronic in nature, he is now expanding his focus to include occupational therapy and work safety.

In his free time, Juan enjoys staying fit by going on walks and working out. This helps him to ensure he can eat whatever he likes! He recently moved from Brisbane. And while the weather is a big change, the food should make up for it.
